Likewise, State Mental Hygiene Law § 33.13 requires disclosure of clinical records to be limited to that information necessary for health care providers to administer treatment.

If a business engages in knowing or reckless violations, the court can impose a civil penalty of the greater of \$5,000 or \$10 per instance of failed notification up to \$150,000. The bidder, by submission of this bid, certifies that it understands and agrees to comply with the procedures of OPWDD as it relates to permissible contracts as required by State Finance Law 139-j (3) and 139-j (6)(b).

U. Bidder Disclosure of Prior Non-Responsibility Determinations

New York State Finance Law § 139-k (2) obligates the Office for People With Developmental Disabilities (OPWDD) to obtain specific information regarding prior non-responsibility determinations with respect to State Finance Law §139-j. This information must be collected in addition to the information that is separately obtained pursuant to State Finance Law §163(9). In accordance with State Finance Law § 139-k, bidders must disclose whether there has been a finding of non-responsibility made within the previous four (4) years by any Governmental Entity due to: (a) a violation of State Finance Law § 139-j or (b) the intentional provision of false or incomplete information to a Governmental Entity. State Finance Law § 139-j sets forth detailed requirements about the restrictions on contacts during the procurement process. A violation of State Finance Law §139-j includes, but is not limited to, an impermissible contact during the restricted period (e.g., contacting a person or entity

Invitation for Bid

other than the designated contact person(s), when such contact does not fall within one of the exemptions).

As part of its responsibility determination, State Finance Law § 139-k (3) mandates consideration of whether a bidder fails to timely disclose accurate or complete information regarding the above non-responsibility determination. In accordance with law, no Procurement Contract shall be awarded to any bidder that fails to timely disclose accurate or complete information under this section, unless a finding is made that the award of the Procurement Contract to the bidder is necessary to protect public property or public health safety, and that the bidder is the only source capable of supplying the required Article of Procurement within the necessary timeframe.

The bidder, by submission of its bid certifies that no government entity has made a finding of non-responsibility regarding the individual or entity seeking to enter into this procurement contract. If the individual or entity has had a finding of non-responsibility due to a violation of State Finance Law 139-j or due to the intentional provision of false or incomplete information submitted to a government entity, then the said individual or entity must provide a detailed statement regarding the finding.

Additionally, the bidder by submission of its bid certifies that no government entity has ever terminated or withheld a procurement contract from the individual or entity seeking to enter into this procurement contract due to the intentional provision of false or incomplete information. If the individual or entity has been terminated or withheld from a procurement contract, then said individual or entity must provide a detailed statement regarding the finding.

V. Non-Collusive Bidding Certification

In accordance with State Finance Law § 139-d, the bidder by submission of this bid certifies that they and each person signing on behalf of the bidder certifies, and in the case of joint proposal, each party thereto certifies as to its own organization, under penalty of perjury, that to the best of his knowledge and belief:

1. The prices in this proposal have been arrived at independently, without collusion, consultation, communication, or agreement, for the purposes of restricting competition, as to any matter relating to such prices with any other bidder or with any competitor, and
2. Unless otherwise required by law, the prices which have been quoted in this proposal have not been knowingly disclosed by the bidder and will not knowingly be disclosed by the bidder prior to opening, directly or indirectly, to any other bidder or to any competitor; and
3. No attempt has been made or will be made by the bidder to induce any other person, partnership, or corporation to submit or not to submit a proposal for the purpose of restricting competition.

W. Public Officers Law Certification

In accordance with Public Officers Law § 73(4)(a)(i) no State employees shall sell any goods or services having a value in excess of twenty-five dollars to any State agency, unless such goods and services are provided pursuant to an award or contract letter after public notice and competitive bidding.

By submission of this bid, the bidder certifies that no employee, owner or individual otherwise associated with the bidder was ever a New York State officer or employee, or if they were ever or currently a New York State officer or employee, their organization pursued and awarded this contract through a competitive bidding process in compliance with the Public Officers Law 73(4)(a)(i).

Public Officers Law § 73(8)(a)(i) provides that no person who has served as a State officer or employee shall, within a period of two years after termination of such service or employment, appear or practice before such State agency or receive compensation for any services rendered by such former officer or employee on behalf of any person, firm, corporation, or association in relation to any case, proceeding, or application or other matter before such agency.

By submission of this bid, the bidder certifies that no employee, owner or individual otherwise associated with the bidder was ever a New York State officer or employee, or they are formerly a New York State officer or employee and any past employment with the State occurred prior to the two-year prohibition period and as a result their organization is in compliance with the Public Officers Law (8)(a)(i).

X. Bidder's Affirmation of Understanding Pursuant to State Labor Law § 201-g

By submission of this bid, each bidder and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that the bidder has and has implemented a written policy addressing sexual harassment prevention in the workplace and provides annual sexual harassment prevention training to all its employees. Such policy shall, at a minimum, meet the requirements of Labor Law § 201-g.

15. Consumer Safety Information

OPWDD provides services to individuals exhibiting Pica, which is a medical disorder characterized by an appetite for largely non-nutritive substances, e.g., cigarette butts, paper, gum, etc. Attention to the sanitation and cleanliness of the areas surrounding OPWDD's state operated program sites and residential buildings is very important to the health and safety of those we serve. Please ensure care is taken to properly dispose of cigarette butts and rubbish while on OPWDD property.

OPWDD property has special receptacles for cigarette butt disposal. Contractor and subcontractor employees shall use these receptacles and throw trash in garbage cans or dumpsters. Compliance with this policy is appreciated.

16. Consultant Disclosure

Effective June 19, 2006, contractors doing business with the State of New York in a “consulting” capacity will be required to file forms disclosing, by employment category, the number of persons employed by them and their subcontractors (if any) as a consulting firm or an individual consultant; the number of hours worked; and the monetary compensation received from the State of New York for work performed by these employees. Reporting will be required via the utilization of two separate forms – “Form A” and “Form B”.

In general, however, Form A is to be completed once upon initial contract award and is used to report “planned employment”. Form B is required annually and reports on “actual employment figures” for the preceding state fiscal year. The New York State fiscal year commences on April 1st and concludes on March 31st.

17. Evaluation Criteria: Method of Award

OPWDD will select a responsible and responsive Bidder that will provide the lowest grand total bid for each county. A bidder may win just one or multiple counties. Only proposals judged to be responsive to the submission requirements set forth in this IFB will be evaluated. OPWDD reserves the right to reject any and all offers.

In the event of a tie bid, the award will be made by random selection.

Scope of Work

This is a full maintenance contact to include parts and labor. Emergency response/repair is included.

Maintenance Activity List

Every 100 Hours or Six Months

1. Change Engine Oil, and oil filter - oil filter shall be dated with magic marker on installation. Old engine oil/filter must be disposed of properly, list same on report.
2. After oil and filter changed, engine should be run, and oil level checked after engine cooled
3. Test engine protective and automatic shutdown devices, where applicable, low oil pressure, low coolant level, high coolant temperature, over-speed, etc. and all other safety devices the equipment may be equipped with. List findings on report.
4. Test Battery and log charging voltage, where applicable. Check and inspect battery cables and posts. Keep battery posts and cable clamps clean and tight. Check for proper electrolyte level in battery cells where applicable, add distilled water when necessary. NEVER use tap water. Inform the Plant Superintendent's office at (845) 947-6249 if the battery is required to be replaced. Authorization to proceed may be given at that time.
5. Perform operational test under load conditions (minimum run time 60 minutes / not including engine cool time – if applicable, and hours should be logged on the ticket) and take amperage readings each leg, log same on report.
6. Inspect transfer switch and all electrical connections for proper operation and condition, log findings on report.
7. Check/clean or replace air filter.
8. Check/adjust v-belt for alignment and tension where applicable. Tension is correct when a force of about 20 lbs., applied between pulleys, causes a belt

deflection of 1/4 to 1/2 inch. Check all cooling system hoses for condition, change any hoses that require replacement as necessary, and log on report.

9. Check block heater for proper operation, where applicable.
10. Clean/wipe down all generator housings/enclosures. Report any oil/antifreeze leaks, where applicable. Correct those deficiencies wherever possible.
11. Check all fuel/exhaust plumbing for leaks, correct where necessary.
12. Check all fluid levels including oil, anti-freeze, and battery. Top off as necessary.
13. Adjust frequency (Hertz) to correct no-load setting per manufacturers' recommendations.
14. Check no-load voltage, adjust voltage regulator if necessary.
15. Replace fuel filter/bleed the fuel system where applicable, visually inspect fuel tank leakage and report any fuel spill to work control immediately.

Every 500 hours on the equipment hour meter:

1. Check valve clearances and adjust where necessary.
2. Replace air filter.
3. Change spark plugs and list the spark plug number on report.
4. Check engine compression and list each cylinder compression on report.
5. Torque engine cylinder heads to manufacturers' specifications. List torque specifications on report.

Annual Maintenance

1. Flush cooling system coolant, properly dispose of old coolant, refill with long-life coolant to proper levels. The recovery bottle level shall be half-full following a full load test (60 minutes) of the generator. List same on report. Coolant shall be an ethylene glycol based anti-freeze. Use soft water only and do not use any chromate base rust inhibitors. Antifreeze shall test to a temperature of -30°F.
 - Replacing the coolant every year is unnecessary where long life coolant rated for multiple years is utilized.
 - The 60-minute load test should be run on the house load. The vendor should turn on all connected loads that would normally be expected to run simultaneously to build up a sufficient load for testing. Simultaneous running of heating and cooling equipment should not be done, nor should any load shedding features be bypassed. Vendor should submit annual 60-minute load test schedule to work control a week prior load test
 - Use radiator flushing solution only if significant rust accumulation is observed on draining the system. Then flush the system with clean, soft water. If no excessive rust is observed, skip the radiator flush solution and just flush the system with clean, soft water. Then refill the system with a -30F or lower ethylene glycol/water solution and non-chromate type rust inhibitor.
2. Check stator and rotor windings, report findings on report.
3. On generators with spark arrestors, spark arrestors shall be removed, cleaned, and reinstalled.
4. All loose nuts/bolts/flanges/etc. flat pneumatic tires, etc. shall be tightened, filled with air, etc. The intent of this activity is to pick up all minor maintenance items remaining which may not have been specifically identified above.
5. Contractor shall record all fuel levels at the time of the service and record same on report. Any fuel levels on stationary generator fuel tanks below 1/4 full shall be reported to the Plant Superintendent's office by phone immediately at (845) 947-6249.

6. Control panels/transfer switches shall be inspected for vermin/insect nesting or damage. Vendor shall remove any infestation and perform minor repairs associated with these conditions.
7. Inspect and clean air filter. Air filter will be inspected for vermin/insect nesting or damage. Vendor shall remove any infestation and perform minor repairs associated with these conditions. In severe operating conditions, this is to be done each time periodic maintenance is done.

All parts required as a result of the periodic maintenance activity identified above shall be included in the Annual Charge. It is assumed that this service can be completed by one technician in less than a two hour timeframe.

Emergency Repair Service

Contractor shall provide emergency repair service 24 hours per day, 7 days per week including all Federal Holidays. Contractor will respond to emergencies within (3) hours of receiving notice. Contractor will provide parts at a markup and bill the hourly labor rate to provide these services. Any generator identified as being beyond repair, (the repair cost in excess of 50% of the replacement value of the unit) and/or needing replacement shall be brought to the attention of the Plant Superintendent at (845) 947-6249 for approval to be replaced.

For Emergency Repair Service, neither a minimum hours nor travel charges will be paid. Payment for services shall apply only to the hours of service while at the site and not from the time of departure from the contractor's office to the time of return to the contractor's office. If Contractor cannot correct the deficiency or replace the part at the time of the emergency service, any return visit shall be paid at the standard hourly rate of service during normal working hours, unless otherwise approved. One billable hour of labor may be charged for any emergency repair/service that takes less than one hour to complete.
