Notes:

1. The confirmed positive counts for staffing are unique to each agency. However, since staff may work at multiple agencies, it results in duplicate counts in an aggregated totals.
2. Not everyone OPWDD has identified as a COVID-related death as reported in IRMA may have COVID as direct cause listed on the death certificate.
3. The data reflect self-reported information and are subject to corrections. Daily/weekly updates will reflect corrections as providers update their data.
4. Every row of this report represents a separate residential facility operated by the identified agency. Addresses and facility identifiers are omitted to protect resident privacy.
